

Taraflex®: The Official Championship Court for NCAA® DI Volleyball

TARAFLEX®

Taraflex®: The Past, Present and Future of Sports Flooring

Top coaches, athletic directors, and players trust Taraflex® Sports Flooring for the best performance and safety in permanent, semi-permanent, and portable sports flooring. With customizable courts to fit your facility's needs, Taraflex is the world's most recognized and preferred sports surface.

Safety & Performance

Taraflex courts are designed for elite volleyball players who pivot, slide, dive, and jump with speed. Each court features double-density foam for added safety and reduced injury risk, all while maintaining top performance.

The patented Triple Action ProtecSol™ treatment prevents injuries and reduces friction burns while providing excellent shoe grip for safe landing and pivoting.

Finding The Right Solution

For over 70 years, Taraflex has offered the widest range of products, colors, and installation options. With a variety of wood designs and solid colors, each court can be customized to fit your facility's needs.

Our new eco-design sets the standard for sustainability, with 58% bio-based and recycled content. Providing a foundation for growth without compromise, Taraflex® ensures that every athlete can reach their full potential.

Champions Play On Taraflex

Recruit top athletes, keep them motivated and healthy, and win more championships—that's why coaches choose Taraflex.

Since being selected for the 1976 Olympic Games, Taraflex has been used in the last 12 consecutive Summer Olympics. Today, it's the home court for over 120 Division I facilities and the Official Championship Court of the NCAA® Division I Men's and Women's Volleyball Championships.

What do NCAA® National Championship coaches say about Taraflex?

"Taraflex is the best volleyball surface in the world! The padding makes diving, sliding and jumping easier on the player's bodies. It will help us keep our players safe and recruit elite level players into our program for years to come." John Cook - Former Head Coach, University of Nebraska

"Now we have more of a volleyball feel when you walk in the building. Players can slide on Taraflex, and there's cushion underneath, which is significant in our sport with all the landing and pounding on the floor." Craig Skinner - University of Kentucky

"Taraflex is the best volleyball surface we've ever played on. It is the safest court because it is forgiving on our player's bodies. Not only does it look great, but it's incredibly durable." David Shoji - Former Head Coach, University of Hawaii

TAILORED TO EACH TEAM

- Courts are tailored to each facility and team, delivering the perfect surface for volleyball players.
- Top sports flooring properties for players who pivot, slide, dive, and jump.
- Players are protected and know exactly how the floor will react at all times.

PORTABLE & SEMI PORTABLE

- Portable and semi-permanent courts install over existing hardwood, offering a flexible solution for volleyball teams.
- Recruit the best athletes & win more championships:
 - Safest Courts
 - Fewer Injuries

SET YOUR CLUB APART

- Attract more players & gain more revenue.
- Loved by players of all ages, it offers:
 - A comfortable, burn-free surface
 - Consistent performance across the entire court
 - Fewer player injuries
